The BD5 is a high-performance pump and depositing machine that deposits your products with great accuracy. This BD Depositor is easy to handle and is easily movable on swivel casters.

Depositing is done directly from a mixing bowl, container or pail. This means no more time-consuming filling of a hopper. Hygiene is an important topic for Bakon, so a great deal of attention has been paid to the machine's cleanability. The BD5 processes all kinds of (semi)-liquid masses, is equipped with a hose and handgun and is therefore extremely suitable for producing individual products such as muffins, cupcakes, dessert, etc.

Part of the BD DEPOSITOR range

BAKON designs and manufactures standardized and customized depositing, spraying and cutting machines as well as production lines for efficient and high-volume processing of pastry products. BAKON stands for advanced technology and reliability.

The BD5 is quickly ready for use and easy to operate. Simply place the product-filled container, bowl or pail underneath the machine, use the pneumatic height setting to lower the suction tube and the BD5 is ready for depositing.

The BD5 is equipped with a handgun and is therefore very suitable for the depositing of individual products.

Stand-alone machine.

- Depositing directly from a bowl, container or pail.  
- Equipped with hose and handgun.

- Operating pressure of 4 bar.  
- High performance depositing with great accuracy.  
- Extremely suitable for the production of individual products (muffins, cupcakes, desserts, etc.).  
- Pneumatic height setting by a foot lever on the mobile carriage.  
- Built of stainless steel and other non-rusting materials.

Cake batter, muffin batter, sponge cake, mousses, custards and all kinds of fruit fillings (e.g. apple, strawberry, cherry, apricot, etc.).

**A** Dosing volume

The dosing volume is set by hand on top of the machine and is indicated on the scale.

**B** Dosing speed

The dosing speed can easily be adjusted by means of a rotary knob.

**C** Handgun with hose

**D** Pneumatic height setting is done by a foot lever on the mobile carriage.

**O** Options

- Handgun with hose
- Dripless nozzles
- Adapter for different spouts

With this extensive and user-friendly range of BD Depositors we cover all your depositing needs and demands. These fast and powerful BD Depositing machines have been designed and developed according to today's requirements in the field of hygiene and all BD Depositors already meet the new standard of 4 bar operating pressure.

**E** Depositing can be done directly out of any bowl, container or pail.
