Sandwich Slicer

DSS-250/1

**The perfect
slice**

Sandwich Slicer

DSS-250/1

DSS-250/1

- * vertical slice machine to slice filled sandwich into triangle sandwich portions
- * the ideal device for an effective sandwich production
- * the cut of several sandwiches about each other is also possible
- * perfect cutting results by a patented KR blade system, also at difficult products
- * continuous product run
- * The product feed could be made by manual or by an automatic product take-over of a conveyor belt
- * direct regulation of the cutting speed by potentiometers
- * space-saving style
- * mobile unit by swivel castors - through this the machine can be used flexibly in different production areas
- * easy dismantling of the most important machine parts for the fast and effective cleaning
- * with the standard machine up to 1200 sandwiches can be cut per hour.
- for higher hourly outputs the sandwich slicer is also deliverable with more than one cutting lines -

Technical Details:

Length: 1650mm
Width: 600mm
Height: 1450mm

Weight: app. 120 kg

max. working width: 250mm
max. product height: 60mm

Electr. power: 230/400V
50 Hz
3 Ph

Power consumption: 1,5 kW
